

# MAPLEWOOD MANOR UPDATE

City of Rockford Utility Improvement Project  
Project Contact- Adam Noreen @ 612.214.5016

## Project Progress

- Paving will take place mid-late next week. The remainder of the bituminous patching will be completed at this time, weather permitting.
- During this paving, the neighborhood will be very congested. The best access leaving the neighborhood will remain Maple to the north and out Elmwood. There is patching that will take place at Elmwood/CR 33. When this work is being done, you will be re-routed to High St. At all other times, please use Elmwood as the access to the neighborhood. Please allow yourself extra time when travelling through the neighborhood during the paving.
- Paving will take place on Edgewood, Elmwood, High, Park, Maple Drive as well as Ash and Maple along CR 33.
- Paving will also take place for driveways in phase 3B mid-next week. Please make sure no vehicles are parked in the area to be paved.
- Paving will take place on the bike trails along Elmwood as well.
- Crews will be working on sod prep in phases 3&4. Sodding is scheduled the week of 10/27.
- The mainline sewer lining crews will begin lining work today. Please run water for a few seconds in all sinks and floor drains. This will reduce the likelihood of unpleasant odors entering your home during the lining process. You may also put a damp towel over drains to reduce any odors. Additional notice will be given when your segment of mainline is to be lined.
- During the mainline lining process in your segment, please adhere to the sewer usage restrictions explained on the door-hanger notice.
- Lateral lining will begin 1-2 weeks after mainline lining begins. Additional notice will be given concerning any impact to residents.

## What can you do?

- It is the City's priority to maintain a safe environment during this project. Safety involves not only the City and the Contractors, but the residents as well. We ask that you:
  - Stay a safe distance from equipment and excavations.
  - Drive with caution throughout the construction project area, obeying construction signs.
  - Respect the construction notices with regards to parking and access to areas of the site.
- In an emergency, dial 911.
- Please use caution while driving around the lining equipment. Crews will need to park in the center of the road to complete their work. Please travel slowly as visibility will be reduced.
- Send your E-mail address to [anoreen@wenck.com](mailto:anoreen@wenck.com) to be included on future e-mails.
- **Utility Drive will be closed Monday-Thursday while new water main is installed to the WWTF.**
